Community Development – Construction Permits and Inspections

984 TUCKERTON ROAD, ROOM 204, MARLTON, NJ 08053 856-983-2914 ext. 4

Demolition of In-ground Pools

A Construction Permit with a completed Building Subcode Technical Form is required along with:

- Third-party letter providing certification describing the type of material and location (source) of importation of fill and that the fill is clean and free of debris.
- Copy of contractor's State registration certificate.

Rules for Clean Fill:

Only clean fill is permitted as backfill. If the homeowner desires to use the concrete pool material as fill, the concrete must be no larger than 3"-4" in diameter and all debris that is not concrete, brick, or block must be removed, including all rebar, vinyl, wood, etc.

Cost of Permit:

Construction Permits for demolition of in-ground pools cost \$168.00. You will be asked to pay this fee at the end of our review. The fee must be paid prior to work commencing.

Required Inspections:

- Inspection prior to backfill
- Final inspection

Prior to Certificate of Approval

All Prior Requirements Must be Met:

1. Copy of survey and third party letter providing certification describing the type of material used.
2. Required inspections.
