**9. VARIANCES:** Complete for variance applications. **Public Notice (15-16) must be completed by the applicant in compliance with the requirements of the New Jersey Municipal Land Use Law. A copy of the public notice and proof of service are required.**

A. Briefly describe each variance requested and provide Zoning Code Section from which relief is being sought: Business would like to add a monument sign to property, and two building signs for better visibility

B. If a "d" variance is requested, what are the special reason(s) which support your application: (This type of variance can only be heard by the Zoning Board of Adjustment) \_\_\_\_\_

C. If a "c" variance is requested, what are the exceptional property conditions which prevent you from complying with the zoning ordinance? \_\_\_\_\_

D. If a "c" variance is requested and you contend there are no exceptional property conditions, how will the Municipal Land Use Act be advanced if the variance were to be granted and how would the benefits of a variance outweigh any detriment? \_\_\_\_\_  
This will help patients to find the building. Which will prevent unnecessary U-turns and traffic in the immediate area and neighborhood

E. Supply a brief statement of facts showing why the requested variance can be granted without substantial detriment to the public good and without substantial impairment to the intent and purpose of the Township's zoning plan and zoning ordinance: The sign will allow for better viability to the building. People often miss the building and need to turn around in other parking lots or residential streets. The sign will help prevent this. It will bring the building up to the same sign standards with the surrounding businesses that also have monument signs.

**Green Development Checklist**  
**Evesham Township, Burlington County**

Completion of the checklist by applicants for minor site plan\*, major site plan, minor subdivision and major subdivision is mandatory; however compliance with the items on the checklist is voluntary. The intent of the green development checklist is to create an opportunity to discuss municipal green design objectives with the development community. Initially the checklist will facilitate communication about green design and development, and make these items part of the land development dialogue. The submission of the checklist by applicants will enable data collection and assessment by the Township. The data collection and dialogue may lead to incorporation of green design elements into the land development ordinances in the future.

\* Applicants eligible for administrative review pursuant to section 127-2D are not required to submit the Green Development Checklist.

**The intent of the checklist questions is to demonstrate the development’s potential to incorporate green design features that improve environmental and economic sustainability, improve energy efficiency, reduce the consumption of energy, reduce emissions, improve air and water quality, reduce solid waste, conserve natural resources, and increase the physical and mental health and comfort of residents and workers in the Township. Please elaborate in a narrative form on any items that merit additional description.**
