

SYRINGE DISPOSAL

SAFETY FIRST!

NEVER PUT SYRINGES IN RECYCLING!

To collect your syringes, use a container for your sharps:

Check with your doctor about a prescription for a containers for used sharps (A). They are also available online.

If you do not have a sharps container, you can create your own (B):

1. Place needle in a sturdy plastic container, like an empty laundry detergent bottle. Bottles should be sturdy, puncture-resistant and should not leak.
2. Put a **"WARNING: USED SYRINGES"** label on container.
3. Clip the needle and put in the plastic container.
4. **Seal the bottle tightly with the cap and duct tape.**

Correctly dispose of your sharps:

Either at a participating hospital or with your household trash. **DO NOT RECYCLE!**

Two Virtua Hospital locations will accept your used syringe containers (*however, no exchanges**):
