Regarding the above matter, Evesham Fire-Rescue is requesting the following items:

1. Solar canopy tops shall not protrude over/into the driveline that surrounds the building. We are requesting the canopy tops terminate event with or prior to the end of the parking lot islands in order to maintained a 25-foot fire access road width surrounding the building.
2. Signage is to be affixed to the lowest point of the canopy on each end of the parking lot aisle to delineate the height at the lowest point of the canopy. We are recommending a sign with 6” tall numbers/letters.
