**Re: Aero Haven Solar Project
Stormwater Statement
Block 63, Lot 1
Evesham Township, Burlington County, New Jersey**

To whom it may concern:

The attached Site Plan sheets have been prepared to show the Phase 2 Solar Arrays that are currently proposed. These arrays were a portion of the project previously designed and approved, the area these encompass were already accounted for in the Stormwater Design of the site. The basin required for the entire project was installed during Phase 1.

With the consideration that the proposed impervious coverage was previously accounted for during the prior approvals, we have not modified the 2022 Stormwater Report and Stormwater design shown on the site plan set as report's calculations indicate the stormwater design should be more than sufficient in this current application.

If you have any questions or require any additional information, please feel free to contact me.

Very Truly Yours,
