Green Development Checklist
Evesham Township, Burlington County

Completion of the checklist by applicants for minor site plan*, major site plan, minor subdivision and major subdivision is mandatory; however compliance with the items on the checklist is voluntary. The intent of the green development checklist is to create an opportunity to discuss municipal green design objectives with the development community. Initially the checklist will facilitate communication about green design and development, and make these items part of the land development dialogue. The submission of the checklist by applicants will enable data collection and assessment by the Township. The data collection and dialogue may lead to incorporation of green design elements into the land development ordinances in the future.

* Applicants eligible for administrative review pursuant to section 127-2D are not required to submit the Green Development Checklist.

The intent of the checklist questions is to demonstrate the development's potential to incorporate green design features that improve environmental and economic sustainability, improve energy efficiency, reduce the consumption of energy, reduce emissions, improve air and water quality, reduce solid waste, conserve natural resources, and increase the physical and mental health and comfort of residents and workers in the Township. Please elaborate in a narrative form on any items that merit additional description.
