TRANSMITTAL SHEET
for
SOIL EROSION AND SEDIMENT CONTROL ACT
Chapter 251, P.L. 1975, as amended
(N.J.S.A. 4:24-39 et. seq.)

To: Evesham Township Municipal Bldg.
Attn: Kevin Rijs (Dir. of Comm. Dev.)
984 Tuckerton Road
Marlton, NJ 08053

Application No.	25125-048	
Block:	36	Lot: 4.05
Project Name	Galleria II	
Municipality	Evesham Township	

The enclosed soil erosion and sediment control plan is:

☒ Certified
☐ Conditionally Certified
☐ Denied
☐ More information is required

Comments:

We find this Soil Erosion and Sediment Control Plan effective for the site and in accordance with the requirements of Chapter 251, P.L. 1975. Certification of this plan is for Soil Erosion, Sedimentation, and related Stormwater Management Controls specified in this plan. It is not authorization to engage in the proposed land use unless such use has been previously approved by the municipality or other controlling agency. In no case shall this approval extend beyond three and one half years, at which time resubmission and certification by the district will be required.

Site inspections will be made to this plan and any changes may void this certification.

A statement of compliance must be obtained from this office prior to the issuance of a certificate of occupancy on the use of this facility.

Any conveyance of this project or portion thereof shall be considered a substantial change unless the district office is given written notification of the conveyance indicating new owner(s), address of owner(s), address change, and agent responsible during construction.

ACCORDING TO THE STANDARDS FOR
2011 EDITION. NO OTHER
APPLICATIONS ARE REQUIRED.

the authors' knowledge, this is the first study to examine the effects of a single session of a group-based, self-help, cognitive-behavioral program on the self-reported health status of a sample of older adults. The authors' findings suggest that a single session of a group-based, self-help, cognitive-behavioral program can have a positive effect on the self-reported health status of older adults. The authors' findings also suggest that a single session of a group-based, self-help, cognitive-behavioral program can have a positive effect on the self-reported health status of older adults. The authors' findings also suggest that a single session of a group-based, self-help, cognitive-behavioral program can have a positive effect on the self-reported health status of older adults.

the 1970s, the number of people in the United States who were employed in the health care industry increased from 1.5 million to 3.5 million. This increase was due to a number of factors, including the aging of the population, the increasing incidence of chronic diseases, and the development of new medical technologies. The health care industry is now one of the largest and fastest growing sectors of the U.S. economy.

As previously mentioned, the *CHLOROPHYLL* data in the T-102 show the seasonal influence of the *Phaeocystis* bloom. The *CHLOROPHYLL* data in the T-102 are presented in *Figure 10*. The *CHLOROPHYLL* data in the T-102 are presented in *Figure 10*. The *CHLOROPHYLL* data in the T-102 are presented in *Figure 10*.

1. The first step is to identify the problem. In this case, the problem is that the company is not meeting its sales targets.

2. The second step is to analyze the problem. This involves identifying the causes of the problem and determining the impact of the problem on the company.

3. The third step is to develop a solution. This involves identifying the actions that need to be taken to address the problem and determining the resources that will be required.

4. The fourth step is to implement the solution. This involves putting the solution into action and monitoring the progress of the implementation.

5. The fifth step is to evaluate the results. This involves comparing the actual results with the expected results and determining the effectiveness of the solution.
